Endometriosis2020

Pushing knowledge. ***Breaking limits.***

Following the echo of Endometriosis2017, it's a pleasure and honor to announce our next meeting **Endometriosis2020**, to be held on **26th-29th April 2020** in the fascinating atmosphere of the eternal city, Rome. Renzo Piano's creation **Auditorium Parco della Musica**, a vital part of cultural international landscape, will open its doors to science.

In line with our previous event, the upcoming Endometriosis2020 will reserve a central role to live surgical laparoscopic marathon performed by leading worldwide experts, with special focus on surgical anatomy and neuropelveology for their crucial role on a such complex issue.

New devices and techniques will be showed, thus being also an update opportunity according last developments from medical industry.

Great surgeons on stage and that's not all. We strongly believe in education and in the need of practical appraisal for increasing surgical learning curve, so the days immediately before will be dedicated to hands on laparoscopic course: Gladiators back home.

Furthermore main sessions and symposia will be dedicated to advanced diagnostic techniques (lectures and live sessions), medical treatment options and reproductive issues, which play a key role in both presurgical and conservative management of patients affected by this benign but often devastating disease.

Four days of intensive scientific activity to share and compare the experiences from main international referral centers and opinion leaders.

We promise all our efforts and passion to make the event great, Rome's magnificence will do the rest.

Studio 1

PG COURSE 1: LAPAROSCOPIC SUTURING TECHNIQUE: GLADIATOR'S BACK HOME

Course Director: Armando Romeo

Suturing is a turning point towards Advanced Laparoscopic Surgery. Combination of the correct stitch and knot tying can be responsible for the success of a complex surgery. Appropriate rules make difficult things easy. The Romeo's Gladiator Rule puts suturing at the hands of all laparoscopists. The knowledge acquired by Romeo's Gladiator School explain which knots are safe and unsafe or dangerous and how to perform them.

This course provides a broad comprehension about the art of laparoscopic suturing, mixing theory and practice.

Course Objectives

At the conclusion of this activity, the participant will be able to:

- *identify safe, unsafe and dangerous knots;*
- *perform bimanual knot tying following the Romeo's Gladiator Rule*
- *Loading the needle and stitching with both hands and supra pubic route.*

PG COURSE 2:

ENDOSCAN: ULTRASOUND IN ENDOMETRIOSIS

Focus on US evaluation of abdomino-pelvic endometriosis spread.

Tips and Tricks from the Experts

Course Director: Alessandra Di Giovanni

Faculty

P. Carfagna

A. Di Giovanni

C. Exacoustos

F. Fascilla

M.O. Goncalves

S. Guerriero

L. Lazzeri

M. Malzoni

L. Savelli

S. Young

Pelvic endometriosis is nowadays a main diagnostic challenge.

Combined transabdominal/transvaginal US evaluation plays a crucial role in the diagnostic work up of this complex disease and it's recognized as the first-line non-invasive imaging tool for its high accuracy in expert hands.

Detailed mapping of endometriotic lesions and their extension in abdomino-pelvic compartments is the key for proper surgical and clinical management of patients affected by this benign but often debilitating disease.

Based on the latest scientific evidences and experts' opinion, this course is aimed at increasing expertise in the evaluation of adenomyosis, adnexal and deep infiltrating endometriosis.

Course Objectives

At conclusion of this activity, the participant will be able to:

- *recognize anatomic landmarks crucial for understanding disease's extension;*
- *detect ultrasonographic signs of uterine, adnexal and deep infiltrating endometriosis;*
- *develop a systematic approach for proper ultrasonographic evaluation of female pelvis;*
- *offer patients a first line high quality US evaluation and understand which cases require more advanced experts' evaluation.*

Endometriosis2020

COURSE OUTLINE

09.30 am - 10.00 am	Registration
10.00 am - 10.20 am	Ovarian endometriosis: potential pitfalls of an apparent easy diagnosis. Detection and management of typical and atypical findings - S. Guerriero
10.20 am - 10.40 am	Adenomyosis: current most fashionable endometriosis expression. Up to date on diagnostic evidence C. Exacoustos
10.40 am - 11.00 am	Anatomical abdomino-pelvic landmarks: normal features you should know and see to be aware of endometriosis related distortion - A. Di Giovanni
11.00 am - 11.20 am	Are current endometriosis classifications applicable to ultrasound staging with soft and hard markers? C. Exacoustos
11.20 am - 11.30 am	Discussion
11.30 am - 11.45 am	Break
11.45 am - 12.05 pm	Anterior compartment: bladder and abdominal wall infiltrating lesions - L. Savelli
12.05 pm - 12.25 pm	Posterolateral compartment: rectovaginal and retro/paracervical lesions, potential impact on ureters and neural pelvic plexa - A. Di Giovanni
12.25 pm - 12.45 pm	Posterior compartment: bowel endometriosis M.O. Goncalves
12.45 pm - 01.05 pm	What does the surgeon ask for proper and safe DIE surgical planning - M. Malzoni
01.05 pm - 01.25 pm	Postsurgical evaluation and follow up - P. Carfagna
01.25 pm - 02.00 pm	Discussion
02.00 pm - 02.15 pm	Challenge test
02.15 pm - 03.00 pm	Lunch
03.00 pm - 05.30 pm	Practical training session - All Faculty

PG COURSE 3: ENDOMETRIOSIS AND INFERTILITY

Course Directors: Antonio Pellicer, Filippo Maria Ubaldi

Faculty

A. Borini

C. Bulletti

F. Cappiello

F. Dominguez Hernandez

J. Donnez

A. Di Giovanni

M. Guido

A. Monzò

L. Rienzi

P. Viganò

F. Zullo

E. Zupi

The course intends to give a general overview of the problems found in infertile women with endometriosis and adenomyosis, a quite frequent phenomenon. From pathophysiology, to diagnosis and management, the course describes the most updated knowledge and proposes effective therapies for infertile women.

Course Objectives

At the conclusion of the course participants will be able to:

- *understand the pathophysiology of endometriosis and adenomyosis;*
- *understand how both entities affect oocyte/embryo quality and endometrial receptivity;*
- *understand the therapeutic benefits of both medical and surgical approaches.*

COURSE OUTLINE

SESSION I

PATHO-PHYSIOLOGY

Chairs: A. Pellicer, L. Rienzi

- | | |
|---------------------|---|
| 10.30 am - 11.10 am | The association endometriosis-infertility: what is new?
C. Bulletti |
| 11.10 am - 11.50 am | Oocyte quality in women with endometriosis
F. Dominguez Hernandez |
| 11.50 am - 12.30 pm | Deep endometriosis and uterine adenomyosis:
are they two linked diseases? - J. Donnez |

Endometriosis2020

SESSION II

DIAGNOSIS AND PREVENTION

Chairs: F. Cappiello, F. Ubaldi

- 12.30 pm - 01.10 pm Fertility preservation in women with endometriosis before surgery - **A. Pellicer**
- 01.10 pm - 01.50 pm US evaluation of abdomino pelvic endometriosis and Adenomyosis - **A. Di Giovanni**
- 01.50 pm - 02.30 pm Lunch*

SESSION III

MANAGEMENT

Chairs: A. Pellicer, M. Guido

- 02.30 pm - 03.10 pm Medical management of endometriosis before ART
A. Monzò
- 03.10 pm - 03.50 pm Surgical management of endometriosis before ART
F. Zullo
- 03.50 pm - 04.30 pm Therapeutic options for adenomyosis before ART
A. Borini

MANAGEMENT

Chairs: A. Pellicer, F. Ubaldi

- 04.30 pm - 05.10 pm Adenomyosis and ART outcomes - **P. Viganò**
- 05.10 pm - 05.50 pm Deep infiltrating endometriosis: surgery or IVF? - **E. Zupi**
- 05.50 pm - 06.30 pm Lessons learned from oocyte donation in women with endometriosis and/or adenomyosis - **A. Pellicer**
- 06.30 pm Adjourn

GENERAL INFORMATION

Registration

Registration via website will be possible by September 24, 2019 until April 20, 2020.

After this date only on site registrations will be accepted.

It is essential that the instructions for payment of all fees are strictly followed.

Registration cancellation

Notification of cancellation must be sent, in writing, to Bluevents. Cancellations will be accepted up to and including March 31, with a refund of all prepaid fees minus € 100 processing fee.

Refunds after this date will only be made under exceptional circumstances and will be at the sole discretion of the Organizing Secretariat.

Registration key dates:

January 15 - Early fee registration deadline

April 20 - Regular fee registration deadline

Educational Credits

For Italian physicians only - I PG Courses ed il Congresso saranno accreditati da Bluevents srl, Provider ECM n. 836, ai fini dell'Educazione Continua in Medicina, per le seguenti professioni: Medico Chirurgo, specializzato in Ginecologia e Ostetricia, Urologia e Infermieri.

EACCME®Credits

An application will be made to the EACCME® (European Accreditation Council for Continuing Medical Education) for the CME accreditation of this event.

The EACCME® awards ECMEC®s on the following basis: One hour of LEE CME activity = 1 ECMEC® 1 accredited hour of LEE = 60 mins of actual educational activity.

A participant can claim a maximum of 8 ECMEC®s per day of the LEE.

The EACCME® does not award fractions of credits. Doctors must only claim ECMEC®s for those LEEs, or parts of LEEs that they have attended, and should ensure that they do so in accordance with their home country's criteria.

American Medical Association (AMA)

Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME credit to AMA credit can be found at: www.ama-assn.org/go/internationalcme.

GENERAL INFORMATION

Hotel Accomodation

We strongly advise all participants to reserve their hotel room as soon as possible in order to benefit from special rates. For group reservation please contact the Organizing Secretariat at endometriosis2020@bluevents.it.

Invitation Letter

The Congress Secretariat would like to clearly state that the letter is only to help the participant to obtain the visa or to raise travel funds and has no further financial obligations from the Conference towards the participant. The Congress Secretariat will only send you the letter of invitation upon request and after receipt of your registration and payment. A valid passport is required for non-EU citizens for entry into Italy. An identity card is sufficient for citizens of EU Member States. Please consult the Consulate nearest to you for special details.

Visas

Prior to booking flights, registrants are strongly advised to confirm with their travel agent whether they require a Visa to travel to Italy. Information about Visa requirements can be found on the World Travel Guide website. Bluevents will not be responsible for any cancellations or delays caused by authorities due to a lack of Visa or other required documentation.

Insurance

The Organizers cannot accept liability for personal accidents, and/or loss of and/or damage to private property of participants, either during or directly arising from the Endometriosis2020 Congress. Participants should arrange their own health and travel insurance for their trip.
