SEUD President:
Pr Felice Petraglia, Italy

Congress Presidents:
Pr Charles Chapron, France & Pr Felice Petraglia, Italy

WELCOME LETTER

Dear colleagues,

In this difficult time, SEUD does not forget objectives and missions:
- study the uterine disorders negatively affecting women's health;
- update their management in order to improve women's quality of life.

This is why, a new form of annual congress has been studied and proposed to you!

SEUD ONLINE WEEK will focus on “Update in the medical and surgical treatment of endometriosis and uterine disorders”.

The online congress will include the main elements of our annual event: plenary sessions, keynote lectures, symposia and selected free communications.

From November 3rd to November 6th, 2020, you will discover a daily program focusing on endometriosis, uterine fibroids, adenomyosis and abnormal uterine bleeding. During all of our live sessions, you will be able to interact with our worldwide experts and more importantly get new knowledge and expertise!

Innovation and research are our key points, thus we are convinced of your interest in this new event!

Don't forget to contribute by submitting an abstract for selected free communications.

Enjoy our SEUD ONLINE WEEK!

Charles Chapron & Felice Petraglia,
Congress Presidents
